

# Motion Pro Racing Simulator II

## Pricing and Options

Item	Price
<b>MPS II Base System</b>	\$32,000.00
<b>Standard Features:</b>	
Light-w eight, high-strength, steel tubular space frame chassis	
Full motion feedback system	
Integrated 5.1 surround sound system w /tactile feed-back	
Integrated 46" High-Definition 1080p LCD TV	
Custom composite racing seat and 4 point belts	
CXC Professional Force-Feedback Steering System	
CST Professional Pedals w /pressure sensitive Brake and progressive Clutch	
CXC F1-style w heel-mounted paddle shifter	
Fully adjustable steering, pedal, and seating position	
State of the art purpose-built rack mounted simulation PC	
Personally Delivery and Installation by a Factory Trained Technician	

### Options

#### Display Systems

<b>Panoramic Display System</b>	\$8,000.00
---------------------------------	------------

Add an array of three w rap-around 46" High-Definition LCD Displays for the ultimate realism of panoramic vision. The wider angle view not only greatly heightens the sense of speed, but enables finer car placement, w ith the ability to see competitors alongside and to look at apexes earlier. Displays are mounted on a tightly integrated, but independent sub frame. All needed hardw are and cabling included.

<b>Advanced Dash Display System</b>	(Call)
-------------------------------------	--------

Get vital vehicle telemetry at your fingertips w ith our dash-mounted gauge system. On the LCD display, cycle through pages of data like: Lap Times, Split Times, Speed, Tire Temperatures, Engine Temperatures, and much more. Shift w ith confidence using our Formula one style sequential shift lights.

#### Controls

<b>Event Simulator Steering Wheel Upgrade</b>	(Call)
---	--------

A new event-level steering assembly able to produce even more powerful force feedback (though still user-variable) and even finer detail in that feedback, with no gear lash. Powerful enough to be used as an exercise tool for drivers, the event-level wheel is even more durable for professional drivers and public use applications. It features six on-wheel buttons and carbon fiber shift paddles.

<b>Six-Speed Gated Shifter (with Reverse lock-out) and Progressive Clutch Up</b>	\$1,050.00
--	------------

When paddle shifting is inappropriate for your racer, use this gated, lightning-fast six-speed racing shifter along w ith a fully adjustable progressive clutch to provide the diaphragm action and feel of a real racing clutch.

<b>Sequential Shifter and Hand Brake</b>	\$1,400.00
--	------------

When paddle and gated shifters are inappropriate for your racer, use this competition sequential shifter. Add the hand brake for ultimate rally action.

## Pricing and Options

### Miscellaneous

#### Mobility System \$800.00

A custom-fit frame with large rotating rubber casters that locks into place on the bottom of the sim, allowing easy positioning or moving.

#### One-Way Shipping Crate (International Orders) \$1,100.00

A custom-designed and fabricated wooden shipping crate suitable for secure one-way worldwide shipping via land, sea or air, with compartments for all simulator components, including a special shock-mount base for sensitive electronics protection. The simulator fits in 95% assembled. This crate is only necessary for international orders. All domestic orders are shipped via a reusable crate returned to CXC Simulations after assembly.

#### Event Shipping Crate \$4,500.00

Custom-designed and fabricated wooden shipping crates for the simulator and three displays suitable for secure worldwide shipping via land, sea or air, with compartments for all simulator components, including a special shock-mount base for sensitive electronics protection. Quick-release fittings and extra durability built in for multiple use. The simulator fits in its case 95% assembled.

#### Event Simulator Emergency Repair Kit \$7,800.00

Designed for redundancy or easy emergency replacement of critical simulator components, including two actuator assemblies (2 bolts, 2 plugs to replace), two steering wheel frame adjuster tracks (2 bolts to replace) and one ready-to-use hard drive pre-configured and pre-loaded with the customer's unique software package (no tools necessary to replace).

#### Lockable Simulator Cover – Single Screen \$450.00

A custom-fitted black, water resistant cover, with a 1/4-inch steel draw cable and padlock points at the base and screen-printed CXC Simulation logos and direction marker.

#### Lockable Simulator Cover – Triple Screen \$550.00

A custom-fitted black, water resistant cover, with a 1/4-inch steel draw cable and padlock points at the base and screen-printed CXC Simulation logos and direction marker.

### Bodywork Options

#### Carbon Fiber Bodywork Kit \$2,000.00

Add a full carbon fiber bodywork kit for the ultimate in race-car style. We use High-gloss 2k twill carbon fiber on all the side panels.

#### Custom Colors and Liveries (Call)

Want a custom color? Looking for that exact race car livery. We can accommodate any color and decal set. Please call for a quote.

### Services

#### Shipping (Call)

Have your simulator shipped in a custom built crate anywhere in the world. Please call for a quote.

#### Advanced On site Setup and Training \$2,500.00

A CXC technician flies to your location for initial assembly and four hours of training on the operation of the simulator and its components, plus another four-hour session the following day, a one-on-one driving school on a variety of cars and tracks teaching you basic racing and setup techniques. (travel and accommodation are not included but required)

## Pricing and Options

### Software

\*All software purchased from CXC Simulations comes pre-installed and configured for all of the simulators systems and options. Software licenses quoted here are for private use only. Please contact us for event licences.

**rFactor ([www.rfactor.net](http://www.rfactor.net))** \$325.00

Presenting rFactor, the new racing simulation series from Image Space Incorporated. After successfully creating over a dozen products in the past ten years, Image Space takes the next logical step, creating a completely new technology base and development process. This new isMotor 2.0 environment will be the foundation on which to build exciting products for many years to come. The first installment in the rFactor series features mixed class road racing with ultra realistic dynamics, an immersive sound environment and stunning graphics.

rFactor provides unprecedented flexibility, allowing the series to grow and evolve with mod community involvement, race club formation, and feedback from users worldwide. We hope you enjoy the ride!

**iRacing ([www.iracing.com](http://www.iracing.com))** \$200.00

iRacing is a subscription-based simulation service for real-world racers and racing enthusiasts, as well as a platform for a new branch of global motorsport - known as internet racing - which is the sport of real-time, online racing.

Price includes the base installation only. The customer is responsible for purchasing their membership and content.

**GTR2/GT Legends ([www.gtr-game.com](http://www.gtr-game.com))** \$240.00

Extending the ground-breaking physics engine found in GTR, GTR 2 takes the thrill of driving to new heights. GTR 2, which is the official simulation of the FIA GT championship, features more than 140 high detailed cars and 34 different track-layouts in a hyper realistic racing world with breathtaking real-world-like effects. With a revolutionary Driving School Mode, GTR 2 will teach everybody how to become a real race driver.

GT Legends is the ultimate historic racing simulation bringing back the legendary spirit of the 50s, 60s AND 70s. From the famous Mini Cooper team to the muscular Corvette Stingray team, GT LEGENDS is the first game featuring all the legends of classic car racing.

**Race 07 ([www.race-game.org](http://www.race-game.org))** \$185.00

Based on WTCC, one of only three official FIA world championships next to Formula 1 and WRC, RACE will feature the complete WTCC championship season of 2006, all the cars, drivers and locations, among these several official tracks and cars brand new to the racing game genre. The game is recreating the championship as close to real life as possible and simulates the cars and the driving style in a ultra realistic fashion.

To keep the game broad RACE ships with various difficulty levels to attract everyone, from hardcore simulation gamers to beginners level still featuring the same elements and a highly realistic driving experience.

**GTR Evolution ([www.gtr-game.com](http://www.gtr-game.com))** \$185.00

The most beautiful GT's. Extreme versions of the already spectacular World Touring Cars. Exclusive roadcars from prestigious brands. You will find that and much more in GTR Evolution, including the legendary Nürburgring Nordschleife, a 20,8km long racetrack in Germany. A racers heaven...

**ARCA Sim Racing ([www.asrseries.com](http://www.asrseries.com))** \$185.00

From the treacherous high banks of Salem or Rockingham to three-wide racing at Talladega or Daytona, the excitement of the ARCA RE/MAX Series is now something you can bring home. ARCA SIM RACING 08 is the culmination of over three years of research and development and is powered by the industries oldest and most versatile physics engine. Built hand-in-hand with top ARCA and NASCAR teams as well as industry engineers, ASR08 provides the most realistic and true-to-life stock car racing experience available in any software today...the next closest thing is getting behind the wheel of a real 850HP ARCA RE/MAX Series car.

**Turismo Carretera: Stock Cars Argentina ([www.actcusa.com](http://www.actcusa.com))** \$185.00

Focusing on Argentina's Turismo Carretera championship, this simulation includes over 60 vehicles from the popular Argentinian racing series, competing on over a dozen tracks, most of which will be new to American race fans. Although a serious simulation, Turismo Carretera also has adjustable difficulty settings to match any skill level.
